Wireless Remote Control

WiZ Pro Remote Control

The WiZ Pro Remote control enables direct control of any WiZ Pro, WiZ Connected, or "Connected by WiZ" device without going through your Wi-Fi router. This accessory controls one or several devices by broadcasting a Wi-Fi message directly to the device. Once the accessory is setup via the WiZ Pro Setup app or the WiZ App, it will be able to control the devices even in the absence of Wi-Fi and the internet. Furthermore, via the WiZ Pro dashboard, it is possible to target multiple rooms, or multiple devices (independently from the room structure). It is also possible to target a few devices in a room with this remote control.
